WATER 4 ALL

water4all.org.uk

26 - 28th June, 2006

I am committed to eating as normal but only drinking water for 3 days to show I care for those who can't. As one of the UN Millennium Targets is to reduce by half those who are without clean water by 2015, I ask the G8 Summit in St Petersburgh to show their commitment also, by real action.

NAME	ADDRESS or Year and SCHOOL	SIGNATURE

By signing you are committing yourself to drinking at least 4 glasses of water a day if you are a child, 8 glasses if you are an adult. Any medical concerns please see your GP.
Those who consume a lot of caffeine may wish to reduce their intake before these three days.
